# DUETTA

Head band made of an elasticated webbing and a nape rest made of nylon.

2 adjusting buckles

Soft co-moulded sealing edge for a comfortable fit

Rigid shell giving strength and incorporating the bayonet connection; made of shock and solvent resistant plastic

Exhalation membrane

**DUETTA** is the ideal facepiece for use during spray painting, crops spraying and in the handling of hazardous chemicals, toxic gases, solvents and dusts.

The soft edge comfortably seats on the face contour while a rigid shell holds the cartridges evenly distributing masses.

**DUETTA** shall be used together with filter cartridges SPASCIANI series 2000 produced in accordance with EN14387 & EN143.

Filter cartridges can accept special prefilters which prevent the clogging of the particle filter in particularly dusty environments.

Kit Duetta

**KIT DUETTA** is composed of a DUETTA facepiece and a couple of filter cartridges selected from those compatible.

# DUPLA

Head harness with five branches, made of EPDM

Outer face piece provided with ergonomic bellows-like sealing edge

Panoramic visor with anti-fogging air circulation

Inner half mask of TPE

Connector group which integrates the exhalation and inhalation membranes and the speech diaphragm

Dupla adapter

Carrying strap of PVC

**DUPLA** is a negative pressure full face mask with threaded connector to EN148-1. DUPLA integrates a panoramic visor and can be used both with screw filters to EN 148-1 and special cartridges of the Spasciani 2000 series.

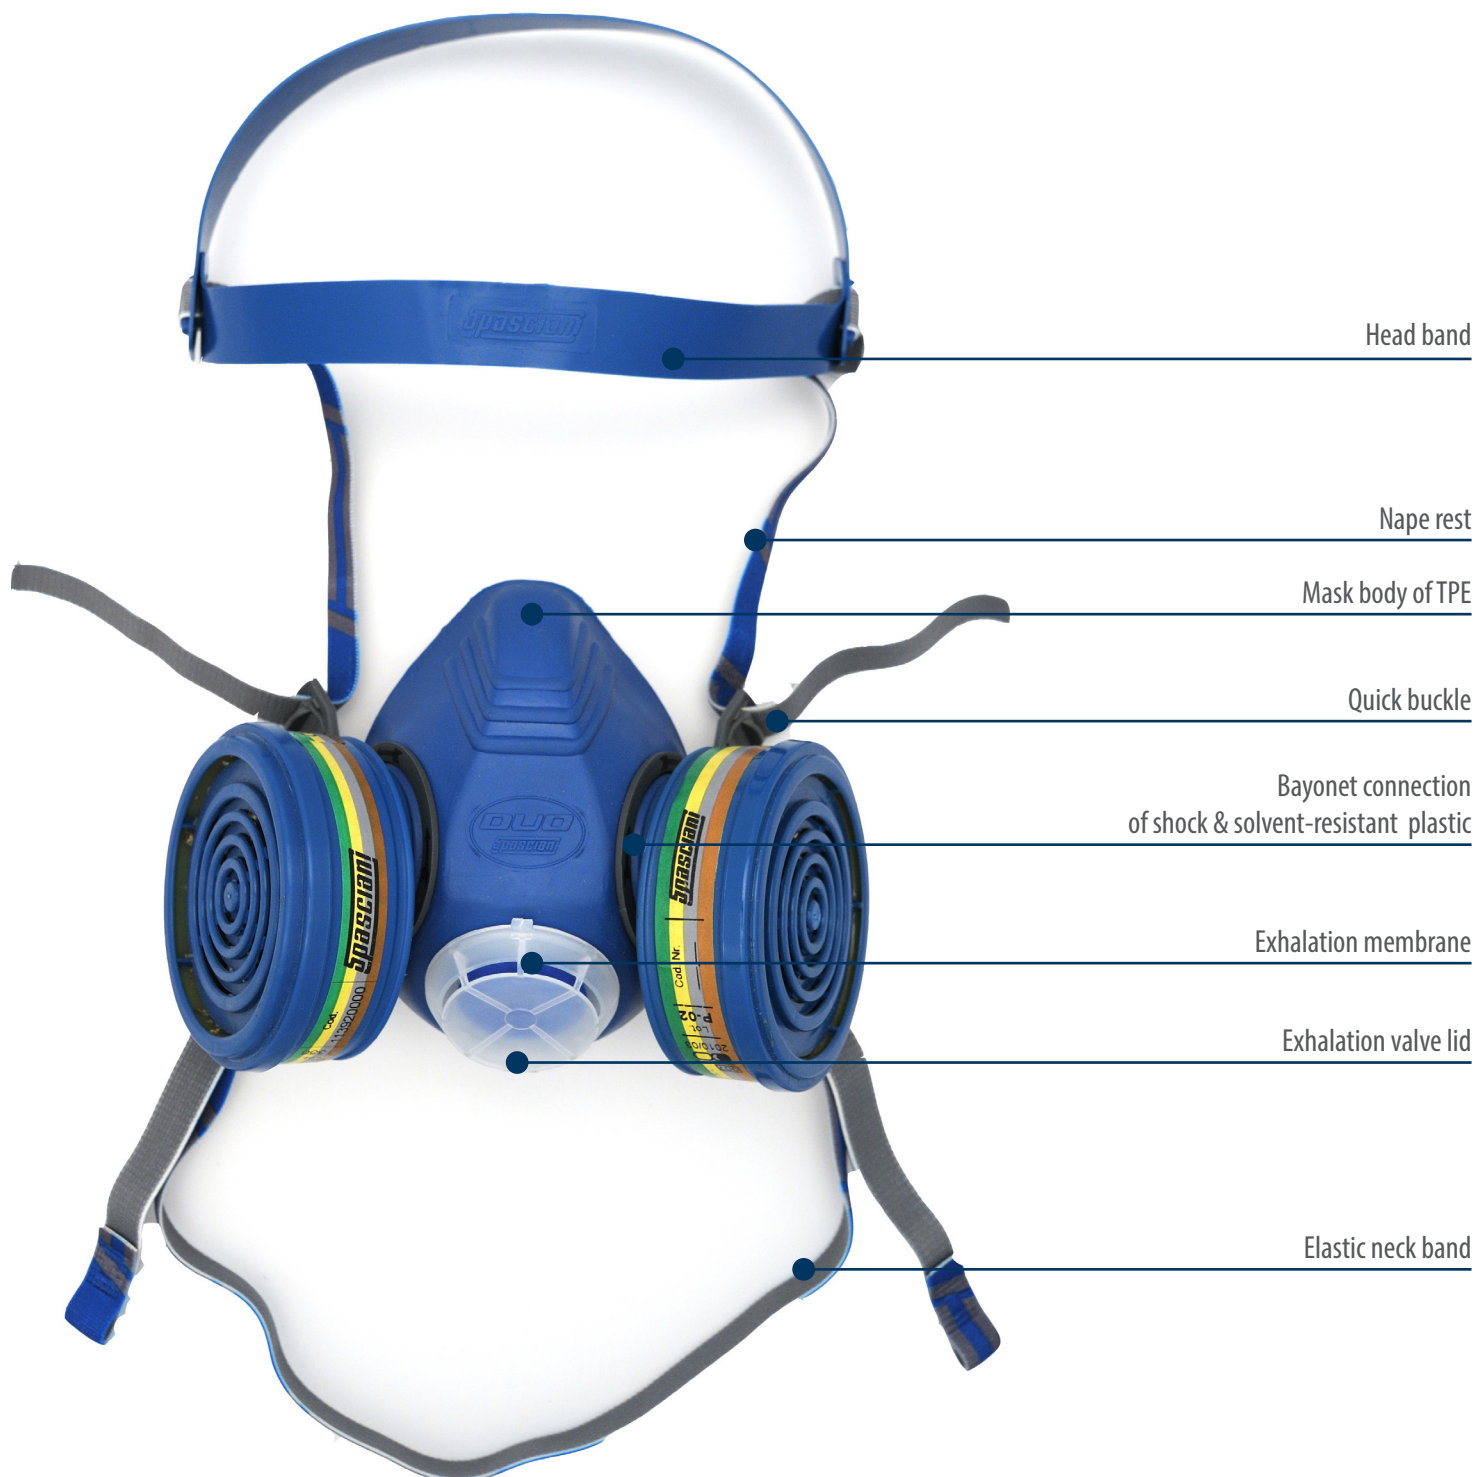

The face blank is normally made of TPE but it is also available in EPDM or SILICONE equipped with scratch and solvent resistant polycarbonate.

Dupla adapter

The **DUPLA adapter** made of nylon (p/n 15790000) allows the connection of two cartridges SPASCIANI series 2000 to the TR2002 mask.

# DUO

**DUO** is a professional, durable, decontaminable facepiece ideal for use during the handling of hazardous chemicals, toxic gases, solvents, dusts and spray painting.

**DUO** shall be used together with filter cartridges SPASCIANI series 2000 produced in accordance with EN14387 & EN143. Filter cartridges can accept special prefilters which prevent the clogging of the particle filter in particularly dusty environments.

Kit Duo

**KIT DUO** is composed of a professional DUO facepiece and a couple of filter cartridges selected from those compatible.

Filters are marked in accordance with their kind of application with a letter and a specific label colour, while their class is indicated by a number.

Filter type	Class	Label colour	Application field
A	1, 2 or 3	Brown	Organic gases and vapors with a boiling point > 65 °C
B	1, 2 or 3	Grey	Inorganic gases and vapors
E	1, 2 or 3	Yellow	Acid gases
K	1, 2 or 3	Green	Ammonia
P	1, 2 or 3	White	Powders, smoke and mists

DUO and DUETTA half masks are certified in accordance with EN140:1998. DUPLA full face mask is certified in accordance with EN 136. All of them conform to European Directive 89/686/CE (PPE).
