

REUSABLE EARPLUGS

Model: DCMAX CORD 100 TPR

Cod.: WSB16101016

DCMAX CORD 100 TPR reusable earplugs have been designed to ensure high attenuation of external noise and great comfort.

The rigid plastic box contains 1 pair of orange ear plugs with blue cord and it is where to store them when not in use.

Easy to insert and remove.

Maximum effectiveness as they guarantee maximum protection at all frequencies.

Washable and reusable.

Hypoallergenic.

Resistance to damage in the event of falls.

TECHNICAL INFORMATION

Attenuation data according to EN 352-2

| Frequency (Hz) | 125 | 250 | 500 | 1000 | 2000 | 4000 | 8000 |
|--------------------------|------|------|------|------|------|------|------|
| Average Attenuation (dB) | 28,5 | 27,9 | 29,7 | 34,1 | 32,5 | 36,8 | 43,8 |
| Standard Deviation (dB) | 6,8 | 6,0 | 5,8 | 5,3 | 5,7 | 5,1 | 4,2 |
| Assumed Protection (dB) | 21,7 | 21,9 | 23,9 | 28,8 | 26,8 | 31,7 | 39,6 |

H= 29 dB / M= 27 dB/ L=24 dB/ SNR= 29 dB

Nominal diameter of the ear plug: 7 to 11 mm

LIMITATIONS FOR USE

The SNR (Single Number Rating, Average Implementation Value) mentioned above is based on the attenuation of continuous noise and the earplugs may not be suitable in the following cases:

- use in environments with intermittent or pulsed noise, where a high level of attenuation is required
- use in an environment that requires additional attenuation, especially in low frequency conditions.

CLASSIFICATION

Compliant with Regulation (EU) 2016/425 essential requirements and EN 352-2 requirements.

REUSABLE EAR PLUG

Model: DCMAX CORD 100 TPR

Cod.: WSB16101016

MARKING

MATERIAL

Earplugs: TPR

Lanyard: PVC

STORAGE

Earplugs should be kept in a cool, dry place, away from cold and light, to avoid contact with dust, grease or chemicals.

WEIGHT

3 gr approx.

PACKAGING /DIMENSIONS

Earplugs are provided in a 100 units box. Box dimensions: 20 x 8.5 x 22 cm
